BATTLE IN MEXICO AT CIUDAD OAXACA

REVOLUTIONISTS BESIEGE STATE CAPITAL IN FORCE

FEDERALS CLAIM FIGHT —REBELS QUIT TUXPAM

Many Insurrectos Left Dead Upon the Battle Field Near Cuernavaca.—12,000 Loyalists in Furious Encounter at Tehuacan.

Mexico City.—Federal forces defeated rebel troops in a lively skirmish at Puente De Ixtla, south of Cuernavaca, killing sixty-seven of the enemy, wounding many more and taking twenty-two prisoners. According to the secretary of war, the rebel forces in this fight were troops of General Figueroa.

According to reports received by the war office, the rebels are again preparing to evacuate Tuxpam, in theoil district of Vera Cruz in face of the federal advance.

In the west, where General Obregon is personally conducting the campaign against De la Huerta, the federals are meeting success. Rebel General Cavazos, who was driven from Pachuca, has taken to the hills and is attempting to cross the country and join the Vera Cruz rebels.

Los Angeles.—Thousands of Mexicans are reported massing throughout southern California in preparation for an offensive against government headquarters in Lower California, the object of the contemplated attack being to establish Adolfo de la Huerta as president of Mexico.

Two generals in high command in the De la Huerta forces at Vera Cruz arrived here to direct the mobolization of forces to carry out the rebellion. Meanwhile, government agents are endeavoring to prevent an outbreak in southern California that might endanger lives and property. Additional immigration and military forces along the border, especially at Mexicali, Tecate and Tijuana, were said by investigators to be under consideration by Washington authorities.

FRAUD WRIT TO BE ASKED ON BOK PEACE PLAN AWARD

Washington.—An investigation of the $100,000 Bok "peace award" has been definitely pledged by a group of leading Republicans in the senate, who have arrived at the conclusion that all of the circumstances of the organization of the Bok plan, its methods of selecting the prize winning essay and its award of the prize should be investigated under the resolution of Senator Reed of Missouri, calling for an inquiry into all forms of propaganda which are flooding congress.

Application to the postoffice department for the issuance of a fraud order against distributors of the Bok propaganda probably will be the first step taken on behalf of the senate to bar the "referendum" literature from the mails, thereby checking the propaganda at the source.

Gunboat on the Scene

Manila.—The gunboat Sacramento has arrived at Surigao, Island of Mindanao, where recent clashes have cost the lives of eighty members of the Colorum, a religious society, and of nineteen constabulary soldiers. The situation is quiet there now, the gunboat captain reported. The Sacramento will take no part in the rounding up of the religious fanatics, but will simply display the American flag for its moral influence.

Forbes Refuses Statement

Albuquerque.—Col. Charles Forbes, former veterans' bureau head, stopped over in Alburquerque a short time en route to Los Angeles, where he was said to be bound for convalescence from his recent illness. Colonel Forbes refused too discuss the senate probe of the veterans' bureau during his administration.

Belfast Rocked by Quake

Belfast.—Earthquake shocks that were distinctly felt in all the coast district surrounding Belfast visited the region early Sunday morning. Many houses were rocked on their foundations.

World Flight April 1

Washington.—The army air service board, considering the round-the-world flight, decided that the attempt would be made "on or about April 1 next" and would start from Seattle.

Papal Secretary to Quit

Rome.—The Fascisti newspaper, Nuevo Paene, says that Cardinal Gasparri will relinquish his post as papal secretary of state. The vatican refused to confirm the report.

JAPAN PLANS LAND BAN IN RETALIATION

BILL WILL BE PRESENTED SOME TIME DURING FEBRUARY

NIPPONESE WILL HAVE LAW BARRING ALIENS

California Legislation to Be Answered With Enactment Aimed at Certain Sections of the U. S.—Will be Urged By Cabinet.

Tokio.—Japan's answer to the recent decisions of the United States Supreme court upholding the California alien land law will be, if the Japanese press is correct in its surmise, the enactment of a new land ownership law of a reciprocal nature, granting the right to own land to individual foreigners except those whose governments deny the same rights to Japanese.

According to the Japanese papers, the contemplated law may make a distinction between the various states of a nation—for instance, barring Californians from holding land, but not New Yorkers.

The vernacular press credits the cabinet with the intention of pressing such an act shortly. The new law would replace the one passed by the diet in 1910, but never put into effect. The 1910 measure provided for alien ownership of land, but contained no distinction between nations, states or groups.

The papers say the land bill is expected to be introduced in the diet early in February, and may be considered the government's answer to the California legislation.

GOVERNMENT THROWS OPEN WESTERN LAND FOR ENTRY

Washington.—A strip of land extending across Oregon from Dallas City, on the Columbia river, to a point on Snake river opposite Fort Boise, Idaho, was ordered open to entry by the interior department. The land originally was a part of the public domain granted for construction of a wagon road by the Dallas Military Road company and the Eastern Oregon Land company in 1867. It is now proposed to open the remaining tracts under the homestead and desert land laws that have not already been patented.

The opening of 200 acres of public land in Trinity county, California, signed in addition, a public notice opening to entry, February 8, twelve public land farm units on the Boise irrigation project in southern Idaho.

WILLIAMSON COUNTY RESORT BURNED—INCENDIARY ORIGIN

Marion, Ill.—Fire, thought to be of incendiary origin, destroyed an alleged blind tiger near here in the first manifestation of violence in connection with Williamson county's prohibition war since state troops arrived to maintain order after Sheriff Galligan announced the situation had "reached the riot stage and is beyond my control."

The placed burned was unoccupied following the arrest some time ago by deputized klansmen of Mike Mische, charged with selling liquor on the destroyed premises. Tony Noroni, owner of the place, frequently has been convicted on dry law violation charges.

INSANE PASTOR CAUGHT NEAR NAPA AFTER A HARD BATTLE

Napa.— Insane and in serious condition from wounds inflicted upon his head, the Rev. T. N. Ryder who, while armed with two rifles, preached a sermon to the congregation of the Methodist church at Arcata, near Eureka, and disappeared, was captured near Calistoga after a battle with Deputy Sheriff Carl Pierce, who came upon Ryder on the highway, and the pair fougha for some time before the pastor was subdued.

Ryder told the deputy that he had been attacked in the hills and his head injured, but it is the belief that the wounds are self-inflicted.

Soviet Seeks Compromise

Moscow.—The communist conference in session here adopted a resolution expressing hope that the all-Russian congresswhich will shortly convene in Moscow, will settle the factional quarrel in the communist party. The "opposition" among the communists is led by Leon Trotsky, commissar for war, who is sick.

Fast Crooks Get $500

Los Angeles.— Working with the speed and dexterity which bespoke practice, two bandits, operating in a light touring car, robbed ten persons in a series of holdups in the university district, all within thirty minutes. The crooks obtained $500.

Golden State
News of Interest to All

Already, the department of mines and mining of the Sacramento chamber of commerce is planning to make the 1924 convention of the American Mining Congress, to be held in October, the most notable gathering of mining and oil men ever held in the United States. A Pacific coast exposition of mines and mine equipment will be held in connection with the convention. Mining tours too the different active camps in northern and central California for the delegates, will also be arranged.

All litigation of the Rodeo Vallejo Ferry company for the right of way and sites for the Carquinez straits bridge from Valona, Contra Costa county, to Sarrow's Cove, Solano county has ended, according to stipulations of judgment filed in Superior court. The action was against Joseph Civilettii of Valona, condemning the property owned there by him.

Frank P. Simons, Belvedere clubman who staged a "suicide" by drowning in November, 1919, when he left his clothes on a little beach at Belvedere and disappeared, was located at Mount Vernon, Wash. He admitted being the man and his wife has returned $5,000 of collected insurance.

Citizens of Sacramento will be engaged in planting trees, shrubs, bulbs and seeds the week of January 20, the first annual "community planting week," to be staged under the direction of the chamber of commerce.

The Tightner gold mine at Alleghany, Sierra county, has been sold to the Clark interests of Montana. The Montana owners have operated the mine under option for two years. Final payment was $100,000.

C. A. Ross, wealthy San Diego and Los Angeles real estate man, was instantly killed at his San Marcos ranch home near San Diego. His head was crushed by the flywheel of a pumping engine.

A three-story reinforced concrete hotel building with cement exterior and tile roof is to be erected at Polo Alto for a corporation of business men. It will contain 150 rooms with baths and will cost $250,000.

The Commodore Stockton post of Spanish war veterans have united in a petition to the Military Order of the Serpent for a charter. Already several of the local veterans are members of the order.

The validity of the joint county bridge across the Bear river, to be built by Yuba and Sutter counties will be tested in the Superior court at Marysville by the Yuba board of supervisors.

The Sacramento supervisors have voted $3,500 to the California Development association as the county's share of the exhibit of California in the ferry building at San Francisco.

An organized fight has been started in Napa valley against the establishment of a motor bus line from Calistoga through Napa Valley into Sonoma and Marin counties to Sausalito.

A truck load of deer meat from thirty-five deer which perished in a canal near Placerville was taken to the Folsom prison, and convicts are feasting on venison out of season.

A majority of the members of the San Francisco Stock Exchange are in favor of the formation of a single exchange in that city for the buying and selling of stocks and bonds.

After being tried three times on a statutory offense, "Blackie" Davis, ex-convict of Fort Bragg, was convicted by jury to a term in prison not exceeding fifty years.

That 2,831,452 pieces of advertising literature and letters were sent out by the Los Angeles chamber during 1923, was shown in the annual report of that civic body.

Edward Wilkins of Fowler, near Fresno, a child of 9, was burned to death when he was dressing in front of an open fire and a spark ignited his clothing.

William Thomas Cohen, 15, was accidently killed by his brother Howard, 13, while playing with a .22 rifle on the ranch of their father west of Cloverdale.

First payment under group life insurance plan adopted by the Southern Pacific, effective January 1, was made to Mrs. E. M. Howorth of Los Angeles.

Easy Bird mine at Mokelumne Hill, near Stockton, is to resume operations at once, under the direction of the Union Gold Mining company.

Stanley A. Smith, Stanford professor of French, has returned after spending a year and a half in France, Italy and Belgium.

Mrs. Nellie D. Egan, widow of the late Daniel R. Egan, and one of the pioneer residents of Petoluma, died after a brief illness.

No county highways will be taken over by the state in the future, either for maintenance or construction, unless clear title is given for a 60-foot right of way.

OFFICERS INSTALLED

Ada Rebekah lodge observed its installation of officers Tuesday evening, the impressive ceremonies being conducted by Dist. Deputy Pres. Emuela Armstrong, and staff of San Jose.

Those whom their fellow members have elected and appointed to conduct the affairs of the lodge are: P. G., Anna Bachman; N. G., Lillian Ohlen; V. G., Ellen Snow; Rec. Secy., Lucy Smith; Fin. Secy., Eva Coupland; Treas. Emma Dalvit; Warden, Wilmay Lea; Conductress, Hazel McQueen; Chaplain, Hattie Gardner; R. S. N. G., Katherine Burns; L. S. N. G., Ivy Tucker; R. S. V. G. Lelia Mason; L. S. V. G., Josie Grizzle; I. G., Mildren Burns; O. G., Horace Lea; Pianist, Minnie Wehmeyer.

A delicious banquet was served during which several of the officers gave short talks and Mrs. Bruegge, Noble Grand of Los Gatos lodge, who was present, also gave a very interesting discourse.

CONSISTENT WINNERS

Our husky high shcool ringsters journeyed to Half Moon Bay last week and captured the bananas by a 35 to 16 score. Being at the disadvantage of playing in a smaller gym our boys were somewhat quaky but after getting their stride it was fair going.

Wednesday evening the unlimiteds again won the laurels by defeating the Morgan Hillers 10 to 25. It was a fast and furious contest from start to finish. Quite a delegation of rooters accompanied the team on the trip.

Our 130 cagers will meet the William Warren school boys at the Campbell gym tonight when a real struggle is anticipated.

MASONS INSTALL

The annual installation of officers for Charity Lodge, No. 362, F. & A. M. was held Monday evening, with Hon. T. M. Wright of San Jose, inspector, as installing officer, and W. C. Bohnett, master of ceremonies.

The newly installed officers are F. W. Mitchell, Master; L. S. Miller, Senior Warden; L. T. Lenox, Junior Warden; R. Alison, Treasurer; J. J. Pardee, Secretary; M. J. Bohnett, Senior Deacon; D. H. Cramer, Junior Deacon; T. A. Robinson, Marshall; W. E. Eckles, Chaplain; E. J. Price, Senior Steward; G. I. Shepherd, Junior Steward; James Fablinger, Tyler.

A good attendanec of members and visitors enjoyed the ceremonies and the fine banquet which followed.

BIRTHDAY PARTY

Mrs. Irving Beal and Mrs. Ira Beal were hostesses at a very interesting birthday party at the home of the former on Sunny Oaks avenue Saturday, January 11, in honor of the birhdays of the two little grandsons. At noon the twelve guests were seated at a beautiful decorated table and a delicious luncheon was served.

Place cards and favors at every plate, and a make-believe pie with surprise plums, all delighted the children. The afternoon was spent very happily in playing games both in the house and out in the sunshine. Those present were: Harold Mumma, Miles Standish, Hugh Cramer, Betty Mumma, Frances Smith, Marion Peake, Lee Gillis, Wilrose Watrou, Betty Thayson, Ira Beal, Jr., and Lawrence Beal.

I. H. Grim who recently sold out his interest in the Orchard City Garage has taken up the selling end exclusively and is selling the Chevrolet for the Mission Car Co. of San Jose. Ira knows autos and should make a good salesman. He will continue to live at Campbell and cover the territory in this section of the county.

ANNUAL IMPROVEMENT CLUB BANQUET A PRONOUNCED SOCIAL SUCCESS

$125 Made for New Library Maintainance Fund

Campbell bosters are, and have every reason to be, proud of their new library and club rooms. Since the opening night, the big gathering Friday evening was the first public assemblage held in the new social hall and proved it very adequate for such occasions.

The Country Woman's Club is receiving most complimentary remarks on the efficient manner in which it planned and carried out the service of the well appointed annual banquet for the Campbell Improvement Club. Nine tables had been so arranged as to easily accommodate the 150 diners. They were tastily decorated with candle sticks and fancy candles, and center baskets of colorous fruits. At the head of each sat one of the Club members as the table hostess who looked to the prompt service of her table guests. They were: Mesdames E. R. Kennedy, D. H. Cramer, R. H. Hyde, W. S. Shelley, W. H. Stray, L. T. Lenox, Ralston Alison, J. C. Ainsley and Leigh Saunders.

Each table was very efficiently served by two young ladies in dainty black gowns, orange crepe aprons and French caps to match. These waitresses under the charge of Mrs. E. E. Lanphear were: Mrs. E. J. Snow, Misses Mildred Burns, Dorothy DeSelle, Alice Strom, Marie and Wannetta McConnell, Anna Lund, Ruth Miller, Elsie Merrill, Ruth Townsend, Irma Young, Irene Preston, Marie Purmort, Helen Gould Gardner, Wilma Smith, Olive Hanger, Marion Austin and Bessie Snow.

The very necessary and important duties demanding attention in the kitchen were ably handled by Mrs. C. A. Sutter, Mrs. C. F. Rubell, Mrs. A. S. Cooley and Miss Sadie Maxon.

Following the sumptuous banquet E. R. Kennedy, president of the Improvement Club, spoke of the substantial growth and improvement in the past year much of which was due to the consistent co-operation of the Club in campaigns for progressive plans.

Miss Katherine Wood, whose sweet productions are always a delight, gave two pretty piano solos: (1) MacDonald's "Concert" and (2) "The Chimes of St. Patrick.

Judge F. B. Brown gave an interesting and instructive talk on the juvenile court, its jurisdiction, aims and accomplishments. He gave a list of cases calling for this court's action concerning mniors. He sounded a warning to parents whose children are hard to control and laid much stress on the evils of joy rides, cigarettes and vanity cases. Mr. Amos Williams, who is ever a popular number on a program, sang two tenor solos accompanied by Dr. W. I. Merrill.

G. S. Robson, speaking for the Commercial Association, urged a hearty support of the home merchants to help make our town a still better one in which to live and trade.

S. N. Hedegard told of his coming to this valley and why he had selected Campbell as his home town. He was very optimistic over the future growth of the town and county. E. J. Cuthbertson, optomistic booster at the head of our grammar school, gave a comprehensive statement showing the steady growth of our grammar school which this fall numbered 523. It is estimated we will increase another 10 per cent this year.

D. H. Cramer, supervising principal of the high school, stated that the daily attendance has more than doubled in four years. The high school district has acquired the new annex and gymnasium and the rest of the block of territory. The school is accredited at the universities and our students are making a good showing. Our graduates who receive recommendation enter on the same basis as those from the larger schools. On February 11 the new entering class is expected to add antoher increase of nearly 15 per cent.

Mrs. Mary Lanphear, who has been literally the life of the club as membership chairman, told of the real co-operation she had met with in her work and that the permanent monument of community co-operation in the form of the new library was one result.

T. A. Cutting, the newly elected vice president, spoke very optomistically of the future growth and development of Campbell and urged a consistent support of the Club in its work.

Walter H. Stray, a former Wolverine, but now an ardent adopted son, stated that his principal reason for locating in Campbell was the hearty and congenial spirit of fellowship he found in the townspeople. He proposed the toast "May the warm hearted spirit of Campbell continue and continue to prosper" which was greeted with much applause.

The committee in charge is rejoicing over the big success financially as well as socially for the library expense fund has been increased by about $125 according to latest figures, owing to the generosity of members, friends and tradesmen in donating supplies.

WELFARE WORK IN SCHOOLS PRAISED

The high school P. T. A. held its father's night meeting Saturday and the principal losers are those who did not attend.

A short business session was held at which Mrs. F. E. Duncan reported the meeting of the district and Mrs. John Lund that of the county federation. In the roll call of parents present the seniors again won the $2.50 prize offered by the association.

The high school orchestra under the direction of Prof. Josef Halamicek played a number of selections whch were roundly enchred to which they graciously responded.

Jos. E. Hancock, county superintendent of schools, gave a very comprehensive talk on the school legislation of the last session. He told of laws that were needed for the good of the schools and some that were proposed and lost.

He is much pleased with the health and welfare program carried on in our schools and hopes to see it a part of the entire system in the future. He also spoke very highly of the night school success as promoted in our district.

The ladies served sandwiches, cake and coffee at the close of the meeting.

BANKERS TRIMMED

The bigger they be the harder they fall. Thusly have the mighty fallen. The newly organized "bank crew" volley ball wallopers Saturday challenged a picked team of local stars which proved too well picked. 'Tis rumored the bankers lost at least four straight games but nobody seems to recomember the real score. . . .

The Bankers signed as: Ralison, Edmark Kennedy, Roy Archibald, Dave Strom, Ethan Lanphear and Merlie Bohnett. The "Trimmers" booked in as: Guy Farley, Walt Stray, Eb. Baugh, Ernie Cuthbertson, Dave Cramer and Bart Guttormsen.

The next game will be held at the local gym tomorrow (Sat.) afternoon between our "Bankers" and the San Jose "Shylocks," both of Mercantile Trust Co. branches.

'COT GROWERS TO RECEIVE ADVANCE

An advance payment on low grade apricots will be made in the near future, according to an announcement by I. O. Rhoades, president of the California Prune and Apricot Growers' association. Slab, standard and substandard grades alone will be affected, however, and it is not expected that checks will be mailed until February 1, and possibly several days later.

The announcement followed a meeting of the association executive committee at which the action was authorized, subject to the provision that payments were to be made "as and when funds should become available" from sales. Although the sales have been made, it was explained, the proceeds have not yet been received at the association offices and will not be for three or four weeks.

The news will be welcomed by growers, as this will be the first advance on low grade 'cots, although, in accordance with the customary practice, advances have already been made on the higher grades.

ASSN. PUTS PRUNE PRICES UP AGAIN ON LARGE SIZES

Effective Monday, prices on the three largest sizes of prunes will be increased by the California Prune and Apricot Growers' association it is announced by A. M. Mortensen, general manager and W. T. Webber, director of sales. Accompanying this announcement came assurance that the low scale offered last Wednesday had met with a gratifying response from the trade, and that the allotment of twenty million pounds at the reduced prices had been distributed in accordance with the plans mapped out, although final returns from brokers had not yet been received owing to large territory covered, in some cases and interrupted communication due to severe storms, in others.

As the First Move, People Must Be Helped Back to the Power of Faith

By A. H. DESLOGES, Quebec Director of Asylums.

As the first move, people must be helped back to that power of faith, that capacity for believing in their own power for good and their neighbors' will for good, as well as in the ability of providence, God, the laws of nature, or whatever name they choose to employ, to run the universe satisfactorily without any human intervention or guidance.

When we get the ten commandments back in their place as the guiding star of respectable men and women, and the criminal code back where it belongs as the danger signal for the evil-minded minority, we shall be well on the way to that mental repose which will allow us to recover our nervous health and stem the tide which is leading mankind to universal insanity.

I am not preaching any religion in saying that. The ten commandments are the basis of the Jewish, Buddhist and Mohammedan religions as well as the various sects of the Christian faith. We want genuine religion, not fakirisms and faddisms. We need sincerity in religion, and we need belief in the goodness of things, of nature, of destiny, of our neighbors and ourselves, and unless we can get these things there is no hope for the stopping of the headlong downward rush.

THOUGHT FOR TODAY

"Organization means getting together a homogenous body of men, each one recognizing the responsibility of his individual efforts, and all pulling in the harness in the same direction, to a common end."

FIRES AS A GAUGE OF BUSINESS

A new measure of prosperity is suggested by C. L. Topping, State Fire Marshal of West Virginia, in a somewhat startling statement concerning the coincidence of poor business and factory fires. "When there is a marked increase in the number of fires in the establishments of a given industry," he says, "it will be found that business in that industry is in bad condition."

Mr. Topping can cite instances which sound convincing. "When we entered the war," he recalls, "there was an immediate demand for all sorts of leather products, and while the war continued there was not a single fire in a leather factory."

The inference is obvious, although Mr. Topping does not make it. It is obvious, too, why "you can generally tell the condition of the garment industry—for instance, that it is overstocked, that orders have fallen off and business is slacked away generally—by the marked increase in the number of fires in factories producing such goods." Not all the increase is due to incendiaries. A man is inclined to be careless of what happens to his plant when it is not paying well, or when it would actually be worth more in smoke and ashes than as a going concern.

At any rate, it is no longer necessary to consult Federal reserve reports to find out how business is going. The percentage of fires is the gauge. And that is so, notwithstanding the severity of State statutes dealing with arson---Tt. Louis Post-Dispatch.

MOTOR CARS, OIL, GOVERNMENT

A. C. Bedford, chairman of the Standard Oil Co. of New Jersey, in an address delivered at the annual dinner of American Petroleum Institute in St. Louis, spoke of the investigation of the oil industry by the Senator La Follette committee, saying: "It will be our own fault if we suffer from public action, because we have allowed critics to create the impression that there is something wrong with the industry, when as a matter of fact, there is nothing whatever fundamentally wrong with it."

The automobile is as much a piece of household furniture in America as the dining room table. The rest of the world combined uses but a fraction of the motor cars owned in the United States.

Again we see how private enterprise and initiative furnish conveniences for the masses. Oil development and motor car production go hand in hand, hurt one and you hurt the other, with resulting hardship to consuming public. Encouragement of the individual, free from useless and unnecessary government restrictions, is the foundation of this nation's greatness—think it over.

NEW DOLLAR BILL ALL "DOLLED UP"

Meet a strange looking and kind of stuck-up dollar bill, don't be alarmed, but take it, as it is worth its face value in gold.

The latest creation of the U. S. Treasury has made its debut in our circulation. It's a lalapaloola, all dolled up in a new dress of blue and black, the figures standing out like sharp silhouettes against a clear background.

The seal is in blue, as is also a large numeral "1". Also the word "one" is spelled in full and scattered over the new certificate. There's not so much hanjo work on the new certificate, but the clear, sharp engraving stands out in bold relief, and it's simply different.

So if you run into one of these welcome little strangers, remove your hat and give it a fitting salute and salaam—and then go out and spend it.

"Let no one beguile you with dreams of idleness. Life without toil, if possible, would be an intolerable existence. Work is the sublime luxury of life."—Warren G. Harding.

Sow Little, Reap Little

Think of Saving as Well as of Getting

B. FRANKLIN, 1706–1790, SERVES still to guide his fellow countrymen. "Sow little, reap little," is one of his fingerposts to wisdom. Another is: "Save, young man, and become respectable and respected. It is the surest way. If you would be wealthy think of saving as well as of getting." *Benjamin Franklin was born January 17.*

TRADE WHERE YOU PARK.

He Likes Your Cooking

A CLEVER HOUSEWIFE says: "Always have the table look as if the meal is ready on time, even if it isn't. So, if you're late, hustle around and set the plates and put the bread and butter on anyway. Husband comes in, takes a glance, is satisfied, picks up the paper, sits down and forgets to notice the lapse of time."

Wise woman. Excellent psychology. Marvelous strategy.

We can only add one suggestion to a scheme so perfect: Always have a stock of JHN goods on the shelves ready to speed up the meal for such an emergency.

JHN good things in stock now include:

JHN Extra Fancy Maine Corn, 2 cans for 45c.
JHN Tiny Sugar Corn, 20c.
JHN Small Whole String Beans, 30c.
JHN Cut String Beans, 25c.
JHN Large White Asparagus, tall, 50c.
JHN Large White Asparagus Tips, 50c.
Yacht Club Luncheon Tips, 25c.
JHN Small Peas, 25c.
JHN Medium Peas, 20c.
Yacht Club Whole Hominy, 2 for 25c.
JHN Pearl Hominy, 10c.
JHN California Sardines, large oval tins, 2 for 25c.
JHN Sauer Kraut, 17c.
JHN Sauer Kraut, No. 2 can, 15c.
JHN Extra Select Spinach, 20c.
JHN Spinach, No. 2 can, 15c.
JHN Extra Select Oysters, 40c.
Yacht Club Baltimore Oysters, 25c.
JHN Red Ripe Solid Pack Tomatoes, 20c.

With plenty of JHN brands in your pantry and the foregoing strategy in your mind, you're fairly safe. But do not blame husband for just naturally seeming in a hurry to eat. It proves that he enjoys your cooking.

Solvene, a fine product by the makers of Old Dutch Cleanser. Here's a Solvene story: For a long time we sold but little. Then one day a patron told a friend how good it is, the friend told her sister, the sister told her sister-in-law, the sister-in-law told her mother—and so on, repeat *ad lib.*,—and, BANG, we sold all our stock of Solvene in two days. We ordered more. A jobber gave us all he had at a bargain. It's a granulated soap for ne washing, laces, curtains, woolens, and it's cheap enough to use for anything you please. Being easy on the hands, it's especially fine for dishwashing. Regularly 15c, now 10c. Large packages, equal to eight small, 60c.

Town Tales Tersely Told

Miss Stella Leviston is doing the sights these days in a new Christmas touring Hup.

Austin Hamilton is confined to his home with the prevalent flu and throat trouble.

Mrs. J. Turnbull who has been a guest at the S. G. Rodeck home returned to San Francisco, Thursday.

Mr. and Mrs. R. W. Smith, of San Francisco, are visiting with Mrs. Smith's parents, Mr. and Mrs. C. F. Rubeli.

W. S. Thompson of Chicago, arrived last week for a visit with his brother, Chas. A. Thompson and family on Winchester Road.

The U. M. Isbell family of Chicage who were guests of Mrs. Cora Marshall, left Monday to continue their journey to Los Angeles.

Rudolph Engel has sold his Hamilton avenue ranch to J. C. Robinson of Budd avenue. Rudy is undecided as to just what he will do to keep out of mischief.

J. E. Lawrence has made his reservations on a British transport which sails for New Zealand January 25. Until that date he is visiting in Santa Clara and San Francisco.

Mrs. Earl Eddleman, who had undergone a critical operation recently was brought home Tuesday altho her physicians are of the opinion that she may have another ere long.

Mr. and Mrs. E. Boulund of Davenport, Ia., are guests this week of their friends, Mr. and Mrs. Worthin Grattan. They are motoring south on their homeward trip.

Mrs. H. W. Higbie writes from New York that she is experiencing delightful weather and is planning to take up work along her lines at Columbia University before returning.

Robt. Hamilton is carrying about a bandaged eye. We haven't seen the other fellow but guess he is some worse. Bob says it was to much "bug-juice" but failed to tell the brand.

R. A. Holmes who has been laying the sidewalk on the west side of the high school grounds and which is nearing completion, reports the theft of several sacks of cement from the grounds.

Robert Vincent, of last year's high school class, is here from Phoenix, Arizona, where he has been employed in a bank. While visiting friends in Campbell he is looking about for an office position.

The Junior C. E's had a party Friday evening at the home of Carolyn Lund and enjoyed a thoroughly hilarious time which the game of "Pit" insures. Refreshments and music rounded out a full evening.

Theo. Jones arrived Sunday from York, Nebr., to visit his sister, Mrs. Herbert Stooksberry and brother, Frank Jones. The day he left York the thermometer stood at 40 degrees below and had been 45 degrees, during the "cold spell" experienced throughout the country.

GUEST DAY

An open meeting of the Country Woman's Club has been arranged for Monday, January 21, and an invitation is extended to the women of the community who would care to attend.

The subject as outlined in the program is Chinese Art and Architecture, Rugs and Textiles, with Mrs. H. W. Higbie, Mrs. W. Shelly and Mrs. Jas. Turner as committee but owing to the absence of Mrs. Higbie in New York, Mrs. Shelly will be chairman, ably assisted by Mrs. Weaver, one of the newer members, who will substitute for Mrs. Turner, as she cannot serve at this time.

A delightful program has been arranged, which has been augmented by valuable material sent from Gumps wonderful art store in San Francisco.

Miss Helen Kalas, whose name on any program is a drawing card, will be present and sing.

AGED PIONEER ANSWERS TAPS

Jacob M. Butts, for thirty years a resident of Campbell community, Saturday afternoon answered the last call and with the furling of the sunset flag joined the silent majority.

Apparently in his usual health, Mr. Butts and his housekeeper had spent part of the afternoon in San Jose where he had driven his car as usual. Just before the supper hour Mr. Butts went out of doors and as he did not return Mrs. Caldwell went to summon him. Receiving no response to her calls she examined the yeard, finding his body outstretched on the ground beside some berry vines.

Neighbors hurried to her assistance, and Dr. Merrill arriving almost at once, declared death had occurred not much over ten minutes before.

The sons, Oscar S. Butts, of Cupertino and Herbert A. Butts of Campbell were immediately notified and assumed charge of arrangements. The funeral was set for today at 2 o'clock and will be held from the Congregational church with interment in Los Gatos cemetery under the auspices of Sheridan Dix Post G. A. R.

Mr. Butts was a native of Pennsylvania, where he was born nearly eighty-eight and a half years ago. Later he lived in Wisconsin where he married Sarah Loomis, and afterward made Minnesota his home for a time, moving to Campbell about thirty years ago. When he retired from active ranching, Mr. Butts sold his property at the corner of Rincon Avenue and Winchester Road to G. M. Ellison, and built an attractive bungalow on North Second street where he had since made his home.

The deceased was a charter member of Orchard City Grange, and as a veteran of the Civil war belonged to the Sheridan Dix Post of the G. A. R.

Besides the two sons, previously named there are Charles E. of Los Angeles and Freeman D. of San Pablo and a daughter Mrs. Rose E. Meacham. of Edgerton, Minn., for whose arrival the funreal services were delayed.

Altho limiting his goings and comings during recent years, still for his age, the deceased had been remarkably active, keeping up his attendance at church and G. A. R. doings, and driving to town several times a week. Altho his death was a shock to his dear ones, it is comforting for them to think that there was no lingering on a bed of illness, acute suffering or gradual dissolution, just a step into the other world.

JAPAN STUDIED

The Moreland Good Will Club held its first meeting of the calendar year with Mrs. Anderson, on Saratoga Avenue, with the usual number in attendance and two visitors.

A real "glad to see you" spirit with Happy New Year good wishes prevailed.

Mrs. Boden gave an interesting reading upon the Industries and Agriculture of Modern Japan. Mrs. Zettle read a most interesting account of Senator Phelan's visiti to Japan a few years ago.

A social hour followed and the meeting adjourned to assemble with Mrs. Shelton, Saratoga avenue, January 23.

HAWAIIAN DAY

The regular meeting of the Pundita Circle was held at the home of Mrs. R. Y. Maxon, January 9, with Mrs. Pardee and Mrs. Clendenning assisting. The attendance was small, owing to so much sickness in the community but a very enjoyable program was presented. It was Hawaiian day. Mrs. Clendenning read an interesting paper on Hawaii in general, while Mrs. Pardee took as her subject the music of the islands. Miss Olive Hanger gave several Hawaiian selections on the piano and the program ended with all singing "Aloha Oe."

A social hour and delicious refreshments followed the program.

Mrs. H. C. Smith is still confined to her home with a severe case of quinsy.

1,093,660 IS REGISTRATION FOR THE YEAR

SACRAMENTO,—Although the year for the State Motor Vehicle Department does not close until February 1, approximate figures for the calendar year have been issued by W. H. Marsh, director, showing the vast amount of business handled.

Automobiles registered to December 31 numbered 1, 050,265; trucks, 43,395; motorcycles, 14,654; chaffeur's licenses, 97,793; trailers, 5,871; transfers, 424,307. This gives a total registration of cars and trucks of 1,093,660.

The figures for December 31 give California but 3,340 to go to reach 1,100,000 registrations for the year. At the present time in excess of 900 cars and trucks are being registered daily and there is no doubt but that the 1,100,000 mark will be exceeded considerably before the records are closed on January 31.

Accurate recent figures on other leading automobile States have not been attainable. From reports available, however, it appears that New York is securely entrenched in first place, having already exceeded 1,200,000 registrations. Marsh believes there will be a hot contest for second place among California, Pennsylvania and Ohio. In both of the Eastern States the registration years ends on December 31 and it has been rather difficult to compare their records with California's which ara a month later. From general appearances, California has about an even chance of nosing out either Pennsylvania or Ohio.

California also expects to rank high in the number of cars per capita. The large Eastern States, by virtue of their population, are able to keep up with or ahead of California in the race for total numbers but fall behind usually on cars per capita. It appears quite likely California again may lead in cars per capita.

Two men passing along the highway near Eureka observed a peculiar glow in the waters of Freshwater creek. Investigation revealed an automobile overturned, but with headlights burning, submerged in the stream. When the car was removed the body of Hugh Morrison, 19, of Seattle, Wash., was found in the folds of the wrecked top.

Ford
THE UNIVERSAL CAR

Looking Ahead

LAST Spring a total of 350,000 people were disappointed in not being able to obtain deliveries of Ford Cars and Trucks, as orders were placed faster than cars could be produced.

The demand for Ford Cars and Trucks this Spring will, according to all indications, be far greater than last Spring.

Winter buying has been increasing at a greater rate than ever before.

Actual retail deliveries the past 60 days totaled 308,170 Ford Cars and Trucks, an increase of 1,961 a day over a year ago.

Over 200,000 people have already ordered Ford products on our purchase plan, the majority of whom will take delivery in the Spring.

The above facts are given with the suggestion that you list your order promptly with a Ford dealer if you contemplate the purchase of a Ford Car or Truck for use this Spring or Summer and wish to avoid delay in delivery.

Ford Motor Company
Detroit, Michigan

You need not pay cash for your car. You can arrange to make a small deposit down, taking care of the balance in easy payments. Or, you can buy on the Ford Weekly Purchase Plan. This puts you on the preferred order list and insures delivery of your car at a time to be determined by yourself.

See the Nearest Authorized Ford Dealer

HOW

GOLDFISH NEED ABUNDANCE OF AIR TO LIVE.—People who do not have good luck with goldfish frequently owe their lack of success to mismanagement.

One of the first things to be learned is that the goldfish in its natural habitat is accustomed to plenty of shade. They need this because their eyelids are poorly developed or entirely absent.

Therefore, when fish are put into transparent globes which admit all the light there is and from all directions at once the fish cannot cover their eyes and cannot find a shady place in which to rest or hide.

Stones and other small objects, such as water plants, can be put in the bowl in such positions as to make a little shade between and under some of them.

The activity of live goldfish in glass globes, so thoughtlessly admired by their owners, is a frenzied activity, a vain effort to find relief from glare.

The other fact is that there is air in the water where fish live in nature. Aerated water is a necessity of life for fish. Water in globes is still and free from air. The fish swim about with gaping mouths, gasping for breath and actually smothering for want of air.

Persons who enjoy seeing goldfish in globes will do well to consider these facts.

MADE THE FIRST PORCELAIN

For Centuries Chinaware Was Manufactured Solely in the Celestial Empire.

For centuries the transparent porcelain which we call, or should call, "china," was manufactured only in the celestial empire

So superior was it to the ordinary earthenware that on its first introduction into Europe various attempts, all more or less unsuccessful, were made to imitate it. The true porcelain, however, could only be made in China, owing to the fact that a particular clay used in its composition was supposed to be found in China alone.

Then it was found that we, too, had our own banks of that particular clay, and our own porcelain works commenced.

The word "china" still survives, though it has largely lost its old meaning, and we loosely describe as "china" a good deal of stuff that is really ordinary earthenware.

Not to be outdone by the men with their bachelor hotels, San Pedro women have plans to erect a hotel bearing the sign "for women only."

A course of landscape gardening is being offered in the Petaluma evening high school.

Southern California expects to be enriched by at least $150,000,000 in 1924 by tourists.

Whenever a family moves into the town of Compton, a card of welcome is sent them.

RAILROADS SET EIGHT RECORDS IN YEAR 1923

MORE FREIGHT TRAFFIC HANDLED DURING YEAR THAN IN ANY SIMILAR PERIOD

SPEND $1,303,000,000 FOR NEW FACILITIES

PLANS MADE TO CONTINUE FINE RECORD OF EFFICIENCY WITH AID OF SHIPPERS

AT least eight new records in transportation service to the public have been set by the railroads this year.

This was disclosed in the report of Directors of the American Railway Association, just received by the Southern Pacific Company, reviewing results of the program to furnish adequate transportation to the public, adopted early in 1923, and telling of plans to continue this good work for the rest of the year and in 1924.

The new records established are as follows:

(1) The railroads, from January 1 to October 1 put in service 134,636 new freight cars and 2,963 new locomotives—a larger number than in any similar period during the last ten years.

(2) A larger number of locomotives and cars have been repaired and put in serviceable condition than ever before in any equal period.

(3) The railroads handled more freight business between January 1 and October 20 than in any corresponding previous period. The number of cars loaded with revenue freight was 40,545,920. This compares with 34,220,426 in 1922 an increase of 18 per cent; and with 36,827,588 in 1920, the previous record year, or an increase of 10 per cent.

The box car surplus in the grain producing states has been the greatest in history.

(4) The average miles moved by each freight car daily in the first 9 months of the year was 27.6 miles, and in September reached 29.2 miles. This compares with 22.5 miles in the first 9 months of 1922, 22 miles in 1921 and 24.5 in 1920. This figure is based upon the total number of freight cars owned, whether in transit or not.

Without Congestion

(5) Because of these increases in facilities resulting in the more rapid movement of cars a record breaking business was handled without congestion and with practically no car shortage or embargoes for the first time in years.

(6) The amount of freight service rendered with each car was 511 tons carried one mile daily during 8 months of 1923, which exceeds the record of any previous year, and surpasses that of 1922 by over 31 per cent.

(7) From January 1 to October 1 the number of tons of coal dumped at Lake Erie ports for movement by boat to the Northwest was greater than in any previous year. The program of providing coal for the Northwest was completed much earlier than in any previous year, thereby making available additional locomotives and cars for other commercial interests during the fall and winter months.

(8) A greater amount of railroad coal has been placed in stockpile storage than was ever heretofore stored by the railroads, thereby making available additional locomotives and cars for general commercial service during the fall and winter months.

The railroads have spent $1,303,244,000 for new equipment and other facilities this year up to October 1, a record amount.

In addition to these expenditures the Class 1 roads in 1922 expended $1,668,573,271 for materials and supplies used in operation and maintenance and this year will have spent $1,800,000,000 by the end of December for this purpose.

Altogether the Class 1 roads in 1923 will have spent over three billion dollars for equipment and facilities, materials and supplies. This money has gone to the industries of the country and is one of the prime causes contributing to their expansion and the employment of labor, which, in turn, has been a major factor in the increase in domestic demand for both the products of industry and the farm.

Fair Income Needed

The Association points out that a continuance of these enormous capital expenditures, which are necessary if the public is to be adequately served, depends on such net income to the carriers as will permit a fair return on the property now devoted to the public service and will make it possible to secure the new capital which is imperatively needed. Attention is called to the fact that despite the unprecedented volume of traffic successfully handled this year, the railroads have not earned even the moderate net income permitted by the Transportation Act.

The Association also voiced the appreciation of the roads for the cooperation of the shipping public which has greatly assisted the handling of equipment. Their continued assistance is sought.

"Can't Afford to Paint."

The man who says that, forgets that painting properly done is economy, and the fact is he can't afford NOT to paint.

How often you require to paint is largely dependent upon the paint you use.

THE SHERWIN-WILLIAMS PAINTS

out last others. They are the most economical paints you can use, because they cover most and wear longest. Add to this their good appearance, and you have perfect paints—*The Sherwin-Williams Paints.*

They are made for many different kinds of painting. Whatever it is you want to paint—a house, or anything in or out of the house—we make the right paint for that particular purpose—not one slap-dash mixture for all.

Beggar Pitied the Queen.

The recent celebration of Queen Wilhelmina's jubilee revives many stories of her youth in Florence, where she lived for a while with her mother. It is related that one day they were going along the Lung Arno, when they were accosted by a beggar. The queen regent wanted to push on, fearing that her daughter might catch some fearful disease, but the little queen, having a will of her own, insisted on stopping. She questioned the man in broken Italian, believing herself quite unknown, and on proceeding gave him half a franc. He looked from the silver in his hand to her, and then back again, and at last said, with an air of impertinence: "So your subjects keep you as short as that! Poor queen."

A Projectile's Speed.

Experiments with improved instruments for measuring the velocity of projectiles have shown that the speed continues to increase after the missile has left the mouth of the gun. Leaving the muzzle with a velocity of about 1,474 feet a second, a projectile has been observed to increase its speed to about 1,689 feet per second within the first six feet. It is only after having traveled about 25 yards that the projectile's velocity becomes reduced to the speed that it had on leaving the muzzle. This is ascribed to the impulse of the expanded gas being felt for some distance beyond the gun's mouth.

He Knows Now.

Slam, bang, crash:

Thus was shattered the silence of the night. After that final crash came a pause that was portentous. A faint stir was heard.

Mother whispered: "Dear me, father didn't know we moved the hat rack."

"Well, he knows now," muttered grandma.
